DETAILED ACTION

1. This communication is in response to pre-brief conference request filed on February 4, 2011.
2. Claims 1, 22, and 28 are amended below by Examiner's Amendment. Claim 25 is canceled below by Examiner's Amendment.
3. Claims 1, 6, 7, 22-24, 28, and 32 are pending and have been allowed.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jacob Martinez (Reg. No. 57954) on May 4, 2011.

Please amend claims 1, 22, and 28 to read as follows:

1. A computer implemented method of determining a buying power of an investment portfolio for a given security, the method comprising the steps of:
 - a) storing a set of compliance rules in a database, each of the compliance rules defining a limit on an amount of shares of the security that can be added to the investment portfolio based on predetermined criteria;

b) calculating a transaction limit for a proposed transaction involving the security for each compliance rule in the set of compliance rules;

c) sorting the set of compliance rules from most restrictive to least restrictive based on the calculated transaction limit for each compliance rule, wherein the most restrictive compliance rule has a lowest transaction limit and the least restrictive compliance rule has a highest transaction limit, and wherein the steps of calculating the transaction limit and sorting the set of compliance rules are performed by an analytical server;

d) displaying a buying power message box on an output device, wherein the buying power message box displays the sorted set of compliance rules and the calculated transaction limit for each rule; and

e) displaying a rule description box on the output device with the buying power message box, wherein the rule description box defines how the transaction limit was calculated.

22. A computer implemented method of determining a buying power of an investment portfolio comprising the steps of:

a) receiving a request to analyze a proposed transaction involving a security from a portfolio manager for a selected portfolio stored in a portfolio database;

b) retrieving the selected portfolio from the portfolio database;

c) accessing a set of compliance rules related to the selected portfolio from a rules database;

- d) determining whether each compliance rule in the set of compliance rules related to the selected portfolio applies to the proposed transaction;
- e) calculating a transaction limit for the proposed transaction for each applicable compliance rule in the set of compliance rules;
- f) sorting each applicable compliance rule from most restrictive to least restrictive based on the calculated transaction limit;
- g) displaying the sorted applicable compliance rules and the calculated transaction limit for each rule;
- h) calculating the buying power of the selected portfolio for the proposed transaction, wherein the buying power is equal to the transaction limit for the most restrictive of the applicable compliance rules; and
- i) displaying a name of the selected portfolio and its associated buying power for the proposed transaction involving the security; and
- j) displaying a rule description defining how the transaction limit was calculated;
- k) wherein each of the above steps is performed using a computer.

28. A system for facilitating trade entry and portfolio management, the system comprising:

- a) a user interface interacting with a control program, a data storage device, and a processor;
- b) a financial security section of the user interface displaying a name of a security as well as data associated with the security;

c) a portfolios section of the user interface displaying data retrieved from the data storage device, the data including a selectable list of investment portfolios and a buying power limit for the security associated with each of the investment portfolios; and

d) a buying power module of the user interface displaying a list of compliance rules retrieved from the data storage device and a transaction limit calculated by the processor, the transaction limit being associated with each compliance rule, wherein the compliance rules and associated transaction limits are listed from lowest transaction limit to highest transaction limit and are applicable to a currently selected investment portfolio in the portfolios section of the user interface; and

e) a rule description section of the user interface displaying how the transaction limit was calculated.

Please cancel claim 25.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The claimed invention pertains to a method and system for calculating transaction limits for a proposed transaction based on compliance rules. The rules are sorted from most restrictive to least restrictive based on calculated transaction limits, with the results displayed along with a rule defining how the transaction limit was calculated.

Based on prior art search results, the prior art deemed closest to the allowed claims is Patent No. US 5,893,079 to Cwenar. Cwenar teaches compliance rules and transaction limits and prioritizing the rules. However, Cwenar fails to teach or render obvious to one of ordinary skill in the art sorting compliance rules based on calculated transaction limits. Cwenar also fails to teach or render obvious displaying compliance rules and a description of how the transaction was calculated.

The Applicant's remarks dated February 4, 2011 on pp. 1-3 in the pre-brief conference request is also incorporated by reference as reasons for allowance.

Dependent claims 6, 7, 23, 24, and 32 are allowed for the reasons indicated above for their respective independent claims 1, 22, and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
